

# Ohio Two Cylinder Club Eastern National **EXPO XIII**

Featuring Model G Tractors and  
John Deere Harvest Equipment

**June 18-19-20, 2026**

**Fairfield County Fairgrounds**

**157 East Fair Ave, Lancaster, OH**

---

## **Expo Rules Promote Safety**

- Look out for spectators and pedestrians at all times.
- Speed limit on the show grounds for all vehicles is at a walking speed.
- Pedestrians always have the right of way. Please be on the lookout when backing.
- Do not leave any equipment running unattended.
- Belted machinery must be roped off to protect spectators.
- Use caution loading and unloading your equipment. Be aware of watching spectators.
- Equipment must be stopped and cooled off before refueling.
- No smoking or open flame present when refueling.
- Fuel must be stored in approved safety containers.
- No tractor or equipment drivers under 18-years old without a signed liability waiver on file at the Registration Table.
- Please park trucks, trailers, and other vehicles in designated areas.
- Any displays in aisles/driveways are prohibited to keep them open for fire lanes.
- Vehicles with any unsafe conditions may not be driven during the show.
- Mounted equipment must be lowered to the ground when parked.
- Mower cutter bars or saw blades must have a protective cover.
- Use extreme caution when riders are on your equipment.
- Tractors, implements and displays are not allowed in the camping area.
- Post your camper pass in your front window facing out.
- No alcoholic beverages, firearms, or explosive devices are permitted on the fairgrounds.
- No political signs may be posted.
- Advertising signs are not permitted unless you are a registered vendor.
- Bicycles or foot-propelled scooters are not permitted inside the show.
- Golf carts, Gators, or utility vehicles are not permitted in buildings. Handicapped scooters only.

## **Rules for Dogs**

- Dogs must remain on a leash at all times.
- Owner is required to clean up after their pet.
- Dogs in the temporary campground area are required to have a rabies vaccination and a form must be completed at registration per Ohio Revised Code.

## **Expo Staff are Available to Assist You**

- Our friendly staffers who are wearing neon ball caps or shirts are available to answer questions for you.

---

# *Welcome* to our Eastern National Expo XIII

The Ohio Two Cylinder Club, Inc. welcomes you to our Eastern National Expo XIII here at the Fairfield County Fairgrounds in Lancaster, Ohio. Our club's mission is to promote interest in the preservation, restoration, and exhibition of John Deere products.

We have equipment displays, collectible displays, seminars, tractor pull, pedal tractor pull, tractor games, kid's games, demonstrations, food, and an auction for you. If you have any ideas for something else you would like to see at the show you can let one of us know.

We are always looking for ways to improve the show.

I'd like to thank you for attending the show and especially thank all of our exhibitors, volunteers, show sponsors, vendors and everyone that helped make the show a success; also, thank you to the Fairfield County Fair board for the use of the grounds. Welcome and thank you for spending time with us and everything John Deere.

Please join us again in 2028 for Expo XIV at the  
Wayne County Fairgrounds, Wooster, Ohio.

Brian Starcher  
President  
Ohio Two Cylinder Club, Inc.

## **2028 Expo Location and Feature Tractors Announced**

Eastern National Expo XIV will once again be held at the Wayne County Fairgrounds in Wooster, Ohio. The dates are scheduled for  
June 8, 9 & 10, 2028.

Feature tractors for our 2028 Expo will be John Deere 20 series two cylinder and new generation tractors and John Deere 120 garden tractors, GP and L series including 62 and Y.

If you have any of these models, we would love to see them at our next Expo. As always, all John Deere models and equipment are encouraged to be displayed. Please make plans to display your tractors and equipment in 2028 and be part of the fun!

## Food Vendors:

- Several vendors will offer a limited lunch menu on Wednesday.
- On Thursday for the movie night, several vendors will be open until 7:00 PM for those who wish to grab a bite before the movie.
- Breakfast will be available from several of our vendors.

## Hot Entrees:

- Falcon's Nest – Coney dogs, sloppy joes, shredded chicken, Philly Cheesesteak, Macaroni salad, drinks
- Champions 4-H – hamburgers, bratwursts, hot dogs, pie, brownies, and drinks
- Tiberio's Pizza – pizza by the slice
- D&J's Fresh Cut Fries- French fries, drinks
- Stone's Smoked Meats – pulled pork, ribs, turkey legs, and beef brisket

## Desserts, Snacks, and Ice Cream:

- Weldon's Ice Cream – ice cream, shakes, floats
- Sweet Betty Concessions – Funnel Cakes, brownies, fry pies, vanilla ice cream, drinks
- Dan's Old Fashioned Ice Cream – Ice cream
- Lemon Shakeups – Just what you expect!
- Hot Rod Kettle Corn – kettle corn, popcorn, caramel corn

## Visit Our Collectibles Display in Building B

Come and see the personal collections of John Deere items on display. There are sure to be hard-to-find vintage literature, promotional items, and some unusual collections to look over. These collectibles are fun to look at and may prompt you to start your own collections!

For assistance, call Joe Slater at 330-262-1993.

## Join us for Movie Night

*Thursday, June 18, 6:00-8:00 p.m.*

### Building B

Grab a bite to eat and come over to watch films on the big screen with us. Sit back, relax and enjoy movies featuring John Deere tractors.

Our food vendors will remain open until 7:00 p.m. on Thursday to give you a chance to grab some dinner before the show.

## Threshing, Baling & Shelling Demonstrations

*Thurs. & Fri. at 11:00 a.m. & 3:00 p.m.*

*Saturday at 11:00 a.m. & 3:30 p.m.*

*Located in infield*

- Enjoy watching live demonstrations of working John Deere equipment
- Rod Bowers provided barley bundles. Elias Keim provided the John Deere threshing machine; and Ray Hintz provided the baler for the threshing demonstration.
- A Model 43 Corn Sheller and Ear Corn was provided by Mike Bowers.
- A Model 71 Corn Sheller and Ear Corn was provided by Doug Shaw.

## Start Your Engines!

*Thursday, June 18, 12:00 noon*

Let's have some fun! On Thursday at noon, no matter what you're doing -- we'd like EVERYONE to start your engines! It will be fun to hear the sounds running throughout the fairgrounds. We'll let Lancaster know the John Deeres are in town!

Outside Tractors Only

## Visit Downtown Lancaster

### The Olde Shoe Factory

- 60,000 sq. ft. historic (and air-conditioned!) 3-story antique mall with cool finds on every level
- They offer farm, automotive and tool sections
- You'll be disappointed if you don't give yourself plenty of time to browse
- This is located at 301 Forest Rose Ave., Lancaster
- Open Thursday, 10am to 6pm  
Friday & Saturday - 9am to 6pm

## Lancaster's Friday Night Bandstand

- Located at 104 North Broad Street, on The Square
- Featuring Rock Music by Sita Allegretti at 6:30pm followed by Main Act WhirlBand at 7:00pm

# Free Educational Seminars

We are pleased to bring these knowledgeable speakers to the Expo.

We appreciate their willingness to share their expertise with us.

## John Deere Tractor Restoration at its Best, Start to Finish

*By Joe Jordan*

**Thurs. June 18, 10:00 a.m. Building B**

Joe will share insight into tractor restoration. Joe has 20 years of experience in tractor restoration and is truly knowledgeable, so bring your problems and questions.

## Troubleshooting Magnets - all things that make spark

*by Kenneth Weaver*

**Noon Thurs, June 18, Building B**

Kenneth lived the early part of his life in Lancaster County, PA. He moved to Ohio in 1994 to farm and in 1998 he opened Weaver's Magneto Repair. Kenneth doesn't do much farming; although there is still large blueberry patch to maintain, magnetos are his full-time job.

His driving motto is quality and original. That is how he approaches his work on magnetos, points, condensers, distributors, plug wires and spark plugs.

Kenneth's seminar will cover the components that make fire in a cylinder. He will have examples to view as well as his troubleshooting guide in a handout. He will also have available to purchase a condenser testing instrument that he assembles in his shop.

If you want a better understanding of how to improve spark on an old tractor, don't miss this one.

## John Deere Custom 60 MFWD and 60 Crawler

*by Tim Sweeney*

**Thurs., June 18, 2:00 p.m., Building B**

Tim will share his story of how these concepts came to him and eventually turned into a reality. These masterpieces of design and construction have been featured in many magazines (including Green Magazine), newspapers and other media.

If you are interested in the details behind the development of the plan, and how the 60 MFWD and 60 Crawler came to life, join him for about an hour.

There will be discussions starting with design and ending with the final working tractor/crawler.

Tim is from Somerset, and runs his John Deere Power Repair business from there.

## **Mock Trailer Inspection**

*by Motor Carrier Enforcement Inspector*

*Ohio State Highway Patrol*

*Friday, June 19, 10:00 a.m., Building B*

MCE Inspector will explain all requirements for proper securement of equipment being hauled on trailers to better assist in overall safety. He will explain the requirements for Working Load Limits of tie downs, the specific way certain equipment has to be strapped down and his general inspection procedure when performing USDOT roadside inspections on commercial motor vehicles.

MCE Inspector will relate, through his many years of experience, the stories of incidents that he has been involved with while doing truck inspections. His real-life stories will further illustrate the need for safety with these larger and heavier vehicles.

We are thrilled to have this hands-on inspection at this year's Expo.

## **The Differences in the John Deere G**

*by David Wolfe*

*Friday, June 19, 2:00p.m., Building B*

Dave will talk about the differences between John Deere Gs.

David Wolfe grew up on a dairy farm in west central Wisconsin. He started plowing at age 8 with a 1951 John Deere A and a 2 bottom No. 44 plow. He still has the same family tractor that he plowed with in 1963. David is a retired heavy equipment operator.

David has been referred to by many as a "John Deere plow historian". He and his wife, Betty, have a company called BEDA Company where they sell plow books and some plow parts.

## **Roundtable Discussion of Harvest Equipment**

*by David Wolfe*

*Saturday, June 20, 10:00 a.m., Building B*

This will be a round table discussion about John Deere Harvest Equipment. Bring your questions about harvest equipment. See his bio under The Differences in John Deere G.

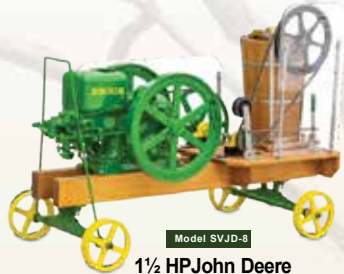

David is a popular speaker at seminars around the Country and we are pleased to have him as a presenter at our Expo.

# Many Thanks to the Awesome People and Businesses Who've Helped to Make This Expo Happen

- We are very grateful for our Expo Sponsors
- The Fairfield County Fair board, for use of the fairgrounds
- Dave Goslin and crew for parking cars
- Fairfield County Antique Tractor Club and Ohio Two Cylinder Club members who have volunteered to provide golf carts and shuttle service to and from the parking lot for our attendees
- Local FFA chapters for working admission gate
- Elias Keim for providing a John Deere threshing machine for demonstration
- Rod Bowers for providing barley bundles for threshing demonstrations
- Ray Hintz for providing the baler for threshing demonstration
- Mike Bowers for providing a John Deere Model 43 corn sheller and Doug Shaw for providing a John Deere Model 71 corn sheller and both for providing ear corn for the corn-shelling demonstrations
- Workman Family Farms for use of Shuttle Wagon and 1958 John Deere 720
- Bent Gate Farms for providing the skid steer and telehandler
- Town & Country Fire Department, West Salem, for providing pedal tractor pulling sled and Brian Starcher for the Pedal Pulls
- Walt & Emily Weldon for providing their Dynamometer
- Visit Fairfield for providing plastic show bags to use for our Exhibitor packets
- Baymont by Wyndham Hotel, Hampton Inn, and Holiday Inn Express & Suites for the discounted blocks of rooms for our out-of-town guests
- Steve Heimbush and Austin Romine for being willing to come to the rescue of those who need mechanical help at the show
- Our many Ohio Two Cylinder Club members who have donated so many hours to plan, promote and work this Expo
- Vendors who have traveled here to set up shop to provide wares
- Food vendors who offer a selection of good things to eat and drink
- Our hundreds of exhibitors who have polished and transported their displays for your enjoyment
- And everyone else who assisted with the Expo!

## Need a hotel?

*These local hotels may have rooms available:*

### **Baymont by Wyndham**

1721 River Valley Circle N., Lancaster; 740-654-5111

### **Hampton Inn**

2041 Schorr Way Dr., Lancaster;  
740-654-2999

### **Holiday Inn Express & Suites**

# Consignment Auction

**Sat., June 20, 1:00 p.m.,**

West end of infield

*(Consignments accepted starting  
Wednesday, June 17, 8:00 a.m.)*

- Our auctioneers are Doug and Adam Leith of Leith Auctions & Realty, LLC of Pleasantville.
- Leith Auctions & Realty are licensed, bonded and have been in business since 1980. They specialize in farm equipment, real estate, livestock sales plus conduct several Ohio County Jr. Fair sales.
- Phone Doug Leith at 740-215-1952 or Adam Leith at 740-304-3142 with your consignment details.
- We accept John Deere tractors, equipment, lawn & garden tractors, implements, parts, tires, tools, memorabilia, toys, literature, and any related John Deere items for auction.
- Bring small auction items to the Registration Desk in Bldg. 50 for consignment. Small consignment items will be on display in Bldg. A before the auction.
- Bring large consignment items inside the west end of the infield, preferably on Wednesday, June 17.
- A telehandler will be available, as well as volunteers to help.
- Volunteers will be present to register your items. At that time, you will receive a detailed receipt of the items we have accepted from you for consignment.
- Items may be consigned until 10:00 a.m. on Saturday, June 20.
- Our auctioneer can accept Visa, MasterCard, Discover and American Express. 5% Buyer's Premium waived for cash or check.
- Pre-sale phone bids are accepted. Contact auctioneer for information.

- No sale fee: regular commission schedule with maximum of \$200 per item. The seller is responsible for his own no sale.
- You must show your receipt before removing items from the infield.
- After the auction, you'll receive an itemized bill of sale, along with your proceeds, in the U.S. mail.
- For auction assistance at the Expo, contact Kelly Irwin at 740-701-1954.

## **Auction consignment fees, per item:**

- 15% on purchases of \$1 - \$499
- 10% on purchases of \$499 - \$999
- 8% on purchases of \$1,000 - \$4,999
- 6% on purchases of \$5,000 and up

## **Find these Free Activities**

### **Area G**

- The Fairfield Antique Tractor Club will have free activities across from the school house. Stop over to visit and give these activities a try.
- Learn to make rope the old-fashioned way! Stop by to learn how to make rope out of twine string. All ages welcome.
- Try your hand at shelling corn with an antique box sheller. We'll have a box set up for visitors to take a turn at shelling corn off the cob.

## **Tractor Pull Rules**

**Friday, June 19, 2026, Pull at 2:00pm**

Sign-up and Weigh-in at 1:00pm

For assistance, contact

Chad Ford at 614-595-8305

or Tony Carnahan 740-416-8707

1. Fun Pull - \$20 per hook
2. You must display your tractor in order to pull
3. John Deere tractors only, up to 1973 models
4. Any tractor or puller found to be unsafe or illegal might be disqualified or banned from hooking. No alcoholic beverages will be permitted.
5. Drivers must stay on the seat of the tractor at all times.
6. Any part falling off the tractor after being hooked, and until the tractor is unhooked will result in disqualification.
7. When starting engines, operator must be in the seat. Starting engines while standing on the ground is prohibited, except for hand crank engines.
8. Unattended tractors with the engines running are prohibited. These rules apply to the pit area, staging area, track area, and ALL show ground areas.
9. AGE – Those under 18 years of age must have written and signed parental/guardian permission.
10. Same tractor is allowed two hooks/class so long as two different drivers make each hook. This applies if less than 12 tractors are in the class.
11. Speed – any gear, not to exceed 3 MPH.
12. Speed exceeding the limit and sounding the horn 3 times will result in disqualification for that hook. A driver may stop once before the 50-foot cone and be allowed a restart.
13. Weights – Weights of a bolt-on type to either the front or back wheels only. Factory Front's are

allowed if they are made for that tractor.

14. Stock plus 10% RPM. Distributors can be used on Antique tractors.
15. Hitches – Maximum 18" height. Hitches must be from the factory, unaltered for that specific tractor. Operator must furnish a clevis with a minimum opening of 3.5" long x 3" wide. Hitch measured at hook point of clevis. All tractors must pull from an original draw bar hooked to the original belly hook point.
16. Safety – The front wheels of the tractor are not to exceed 16" (or be declared unsafe by the flagman) off the ground during a pull.
17. Appearance – Tractors must maintain original stock appearance. No homemade rear end/PTO covers allowed.
18. Tires – No alterations permitted. 15.5 x 38" 6500# class and below; 18.4 x 38" – 7500# and 8500# class.
19. Exhibition Puller – Any show participant who has a pure stock tractor which does not comply with the rules or does not have enough tractors to qualify in weight class may pull Exhibition. Paid entry fee required. Tractor cannot place in class. Exhibition tractors will be the last pullers in the class.

## DIV. II Tractor Pull Rules

**Friday, June 19, 2026, immediately following DIV 1**

For assistance, contact Chad Ford at 614-595-8305

Or Tony Carnahan 740-416-8707

1. \$20 per hook
2. You must display your tractor in order to pull.
3. John Deere tractors ONLY, up to 1973 models
4. Line-up is order of sign-up.
5. If you are not in line when you are called you will pull last in class.
6. Maximum tire size 18.4 x 38"
7. Wheelie bars are required
8. Cut tires permitted in all classes
9. No RPM limit (unchecked)
10. Maximum 6.0 MPH, with speedometer on sled.
11. Stationary drawbar 20" maximum height. 18" back from center of rear wheel minimum.
12. Speed exceeding the limit and sounding the horn 3 times will result in disqualification for that hook. A driver may stop once before the 50' cone and allow a restart.
13. Safety - the front wheels of the tractor are not allowed to exceed 16" (or be declared unsafe by the flagman). Off the ground during a pull.
14. Age - those under 18 years of age, must have written and signed parental/guardian permission.

## Let's have a Tractor Parade

***Fri. & Sat., June 19 & 20, 12:00 noon***

- Open to anyone who displays a tractor (large, small and lawn & garden).
- The parade route will be posted at the Registration Table in Bldg. A.
- Each exhibitor packet contains two (2) Parade Entry Cards; one for Friday's parade and one for Saturday's parade.
- Before you line up, complete a Parade Entry Card for each day's parade with information about yourself and the tractor you are driving. Writing instruments and extra entry cards will not be available at line-up. Please include any interesting information about your tractor. Parade Entry Cards will not be returned.
- Participants should line up at the Tractor Games area of the infield, starting at 11:00 a.m., and should be in place by 11:55 a.m.
- Someone will come along and collect all of the Parade Entry Cards once you line up. Please do not change spots in the lineup after your card has been taken to prevent confusion and delay for the announcer.
- Drive your tractor at a walking pace, about 3 to 4 mph.
- Keep about one tractor length between tractors. Do not slow down, stop or pause while approaching the Announcer's Stand or while your tractor is being announced to help ensure that everyone follows the same route after the Announcer's Stand.
- Only the driver is permitted to be on the tractor unless a safe/second seat is on the tractor, or you have filed a liability waiver at the Registration Table for a rider. The waiver must be filed and signed by the owner of the tractor prior to the parade.
- All Expo rules apply to parade participants.
- Tractors must be fully functioning with sound mechanical systems in place.
- Please pay attention to pedestrians as the route will go through the main areas of the show.
- The parade will end after passing the main grandstand area of the track.
- For assistance with the parade, call Brian Starcher 330-439-3408

## LAWN AND GARDEN TRACTOR GAMES

### Chain in the Box game

**Thursday, June 18, 1:00 p.m.**

- With a chain hooked behind the garden tractor, the driver must pull the chain out of the box and then maneuver the tractor to put the chain back in the box.
- Sign up Thursday, June 18 at 1:00 p.m. on the track at the grandstand.
- Competition will be held at that location. Bring your L&GT and your friends.
- The only thing you win is bragging rights and the envy of your friends.
- Must be 18 years or older or have a signed waiver by a guardian.
- This is a timed event. Shortest time wins.
- For assistance, call Roe Riegel at 740-601-1890,

### "Left, NOT Right!" Competition

**Thursday, June 18, after Chain in the Box game**

- Guide your blindfolded tractor-driving partner through an obstacle course.
- Sign up Thursday, June 18 at 1:00 P.M.
- Competition held at same location on the track. Bring

your L&GT and your friends!

- This is a timed event. Shortest time wins.
- The only thing you win is bragging rights.
- Two-person teams must be 18 years or older or have a signed waiver by a parent.
- For assistance, call Roe Riegel at 740-601-1890.

### Ball Drop Competition

- Drop tennis balls into buckets as you drive through an obstacle course.
- The person with the most balls inside the buckets wins.
- This is a timed event –best time breaks a tie.
- Competition held following the Left not Right game.
- Must be 18 years or older or have a signed waiver by a parent or guardian.
- For assistance call Roe Riegel at 740-601-1890.

## Kids Coin Scramble

**Saturday, June 20, at about 10:30 a.m.  
Area G**

- Kids in each age class have fun digging through the sawdust to find their winnings (quarters).
- Open to kids, age 3 to 12 years old. There is no sign up.
- Age classes: 3-4 years, 5-6 years, 7-8 years, 9-10 years, 11-12 years.
- Once everyone in each age class has completed their Pedal Pull, that age group will begin the Kids Coin Scramble.
- This event is compliments of the Fairfield County Antique Tractor Club.
- For assistance, call Doug Shaw at 740-407-2347

## Kid/Adult Pedal Tractor Pull

**Saturday, June 20, Building C**

*9:00-10:00 a.m. Sign up*

*10:00 a.m. Pull begins*

- Open to kids and adults, age 3 and over.
- There is no entry fee.
- Age classes: 3-4 years; 5-6 years; 7-8 years; 9-10 years, and 11-12 years. Adult class is 13 and over
- 1st, 2nd and 3rd places in each children's class will receive a trophy.
- Participants must use the pedal tractors provided.
- Once each age class completes their Pedal Pull, they may choose to try the Kids Coin Scramble.
- Many thanks to the Town & Country Fire Department, West Salem.
- Ohio Two Cylinder Club and Town & Country Fire Department are not responsible for accidents.
- For assistance, call Brian Starcher at 330-439-3408.

## Ring Around the Tractor

**Thursday & Friday at 11:00 a.m.,  
Saturday at 3:00 p.m., Area G**

- Open to ALL AGES!
- Play for a chance to win a 1/16 scale model tractor. The odds are great: You have at least a 1-in-24 chance of winning!
- Maximum 24 participants; there is no entry fee.
- You'll be given a numbered mat which you'll place in a large circle around a toy tractor, and stand on your mat. As music plays, walk around the circle. When the music stops, players stand on the nearest mat. A number is drawn, and whoever is standing on that number wins the toy tractor!
- For assistance, call Doug Shaw at 740-407-2347.

# The History of the Model G

In the mid 1930's, Deere was starting to produce its brand new row crop tractors, the model A and model B, but still saw the need for a larger row crop to compete with Farmall's F-30. In 1936, to fill this need, Deere began testing their prototype designated KX with the goal of making a 36-horsepower tractor capable of pulling a three-bottom plow. This tractor was originally planned to be the model F, the next letter designation that Deere had not yet used on their tractors, but to alleviate any possible confusion with its competitor, the F-30, it was decided that the new tractor would be called the model G.

The unstyled G was put into production in 1937, advertised as a three-plow tractor with enough power to handle a variety of tasks. One problem that Deere faced in the early production of the unstyled G was that tractors in warmer climates were having issues with overheating. This problem was due to the fact that the tractor was designed to maintain the higher engine temperatures necessary to

burn heavier fuels, but this design worked a little too well and caused the engines to overheat while under a heavy load and in a warm climate. To combat this, Deere began making changes to the cooling system and eventually instituted a field modification program that would include adding a taller radiator. Some tractors, however, never received the updated parts and are now known as "low radiator" models and are more desirable to collectors. Even though most of Deere's tractors got the new "styled" appearance in 1939, due to its lack of popularity, the unstyled version of the G was produced until 1941.

In 1941, Deere began the process of styling the model G to make it seem less antiquated when compared to the A and B. All they had to do was take the styling of the other row crop tractors and adjust it to fit the larger size of the G. The only problem they faced was that they had changed the exhaust and air cleaner on the A and B to be in the center of the hood, but on the G doing this would have required major changes to be made. Because of this, they left the stacks next to each other, as the unstyled tractors had been. Besides styling, Deere made many other changes to modernize the G, including

adding a six-speed transmission, lights, electric start, and many other changes to make it a more desirable option for farmers. By 1942, the new styled G was ready for production, but at this time, World War II was in full swing, and the US had imposed price controls which would not allow Deere to increase the price of the G enough for them to make a profit. To get around this, they introduced the new tractor as the GM, or G modernized. This let them set whatever price they wanted since the GM was a new model.

In 1947, with the war being over, Deere was free to change the designation of the GM back to just being the G. There were no major changes made along with the new change in designation, but soon after, Deere made some much-needed changes. The most easily noticeable change was the switch to a battery box seat, as the GM and the first styled G's still had a pan seat. There were many refinements made throughout the production of the styled G, but nothing major was needed to make it a reliable workhorse. It retained the cast iron frame that on the A and B had been updated to be a pressed steel frame, and never got a fully enclosed flywheel cover like its row crop counterparts had received. The G was produced until it was replaced by the 70 in 1953.

# The History of the 10 Series of New Generation

In August of 1960, nearly 6000 people from John Deere dealers around the US and Canada were transported to Dallas, Texas, for Deere Day, where Deere's new line of tractors would be introduced. These new tractors were referred to as Deere's "New Generation of Power", and included the 1010, 2010, 3010,

4010, and 8010. These new tractors had been redesigned in every way and were only recognizable as a John Deere by their trademark green and yellow paint. The largest change, however, was internal. Deere had abandoned its two-cylinder design that had been used on every tractor up until now, for a vertical inline 4 or 6 cylinder engine.

Deere began experimenting with using four-cylinder engines in their current two-cylinder frames as early as 1950, but by 1953, they saw the need to completely redesign a tractor that would be competitive in the coming market. Originally, they wanted to use a "V" style engine, both to set them apart from their competitors and so that more parts could be interchangeable between engines. They planned to use a V4, V6, or V8, depending on the size of the tractor, but quickly ran into issues. Since Deere wanted to keep the frames of these tractors thin, to achieve maximum operator visibility, they had to abandon the preferred 60-degree angle between cylinders for a smaller 45-degree design. This design, however, created new problems such as worse reliability and temperature issues. In 1956, Deere swapped their efforts back to using inline 4 and 6 cylinder engines.

At their release in 1960, Deere's lineup consisted of completely new machines. Henry Dreyfuss Associates, the same group that had worked with Deere since 1937, got the job of updating the looks and comfort of the new tractors. The general look of the tractors was made to be more sleek and modern, moving away from the outdated look of the two-cylinder. With this complete redesign, they were able to update many comfort and usability features. The seat was changed to be more comfortable and usable for

people of all heights. It could move forward and backward, but on an incline to keep the operator's knees at a comfortable angle, no matter their height. It could also be quickly released and moved to the back to give the operator room to stand, and easily moved back to a preselected sitting position. The whole operator's station was redesigned to be more convenient, putting the shifter to the right of the steering wheel on the dash, and the implement controls to the left. This was a major step up from the two-cylinder tractors, which had the shifter on the floor and the implement controls in multiple places that made them inconvenient to operate. Deere released most of the 10 series at Deere Days in 1960, but there were still multiple models released after the fact. Even though it had already been in development for as long as the rest of the series, the 5010 was not ready for release in 1960. It was not until 2 years after Deere Day, in August of 1962, that the first 5010's were shipped out. At the time, the 5010 was the first two-wheel drive tractor to demonstrate more than 100 drawbar horsepower. It was Deere's largest tractor you could get before stepping up to the four-wheel drive articulated 8010. The 2510 was another model that was released after the rest of the 10 series. It was the last of the series, and was introduced in August of 1965, and was effectively an upgrade from the 3010 without making the step up in power and price to a 3020. The 2510 ended the line of the ten series of New Generation, ending with the 1968 model year.

# Show off your skills at our Tractor Games

*Thursday, June 18, 2026, 1:00 pm (Infield)*

- Tractor Games are fun exercises to show off your skills. The only thing you may win is bragging rights.
- Open to men and women, age 16 and over, who display a tractor
- Those under 18 years of age must have written parental/guardian permission.
- Located on the infield
- Sign up Thursday at 1:00pm, in the infield.
- Spectators are welcome to watch the antics.
- For assistance, call Ted Payn, 248-765-5464

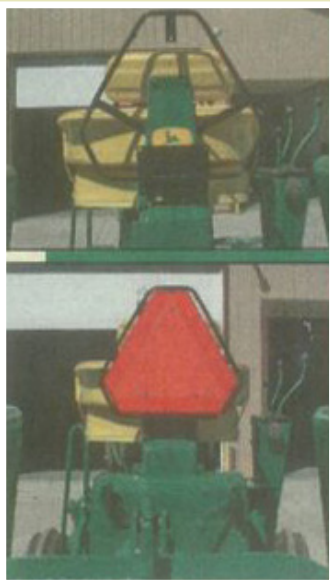

1. **Slow Tractor Race** – In this race, the last tractor to cross the finish line wins. It's harder than you think.
2. **Reverse Slow Race** – In this race, the last tractor to cross the finish line going backwards wins.
3. **Barrel Rolling** – This one's a doozy! Roll a 55-gallon barrel with your front wheels down the track, around a stationary barrel, and back. This is a timed event – the shortest time wins.
4. **Ball Drop** – Drop golf balls into buckets as you drive through an obstacle course. The person with the most golf balls inside the buckets wins.
5. **Blindfolded Obstacle Course** – With two persons on a tractor, the driver is blindfolded with the passenger serving as a coach to give instructions through an obstacle course. This is a timed event -- best time and accuracy wins.
6. **Blindfolded Driver** – At the starting line, you are blindfolded and will drive slowly and stop when you think you are at the second line, or are told to stop. Closest to the line wins.
7. **Chain-in-the-Box** – A six-eight-foot chain is hooked behind the tractor. Contestants maneuver their tractor, again and again, to get that chain into the box. This is a timed event. The shortest time wins.
